

Course Summary

The Secondary Glaucomas

Blair Lonsberry, OD, MA, Med, FAAO

Course Description

The following interactive presentation will explore the development of glaucoma with a secondary cause. The secondary glaucomas are a varied group of conditions that are often asymptomatic and challenging to diagnose, manage and treat.

Course Learning Objectives

- What is a secondary glaucoma
- Review of neovascular glaucoma diagnosis, treatment and management
- Review of pigment dispersion syndrome and the development of glaucoma, diagnosis, treatment and management
- Review of pseudoexfoliation syndrome and the development of glaucoma, diagnosis, treatment and management
- Review of the lens induced glaucomas including phacomorphic and phacolytic, their diagnosis, treatment and management
