

Course Summary

Pseudoexfoliation Syndrome and Glaucoma: A Dangerous Duo

COPE # 35728-GL

Pinakin Davey, OD, PhD, FAAO
Associate Professor

Course Outline

1. Background
 - a. Definitions and misconceptions of pseudoexfoliation syndrome
 - b. Etiology
 - c. Pathogenesis of pseudoexfoliation syndrome
 - d. Systemic features
 - e. Slit lamp evaluation of a pseudoexfoliation syndrome
 - f. Gonioscopy evaluation
2. Advanced technology
 - a. Anterior segment OCT
 - b. Ultrasound biomicroscopy
3. Mechanisms of glaucoma with open angle
4. Mechanisms of glaucoma with narrow angle
5. IOP spikes and pseudo exfoliation syndrome
6. Case discussions involve
 - a. A typical case of pseudoexfoliation syndrome
 - b. A subtle case of pseudoexfoliation syndrome
 - c. A case with IOP spike due to pseudoexfoliation syndrome.
